Board Of Education Give Reasons For Purchase Of \$60,000 Property

The following are reasons why the Board purchased the 80 acres at a cost of \$60,000 for a new Senior Elementary School.

Integration of Secondary and Elementary School Programmes: The new school will be approximately 1000 feet from the Haliburton Highlands Secondary School. At the present time the secondary school is completely occupied, every classroom is being used. We hope that by having secondary school students take Art, Music and Industrial Arts in the senior elementary school that some of the overcrowding can be alleviated in the secondary school. Student forecast show an increase of nearly 100 for the secondary school in the next three years. This estimate does not take into account the ever increasing number of families that are coming to our county. Also, in our secondary school we have only one Home Economics room and it has both foods and clothing taught. Classes have too many students for one room and therefore, we are going to have foods taught in one school and clothing in the other.

If we were to have overcrowding in the secondary school and the senior elementary school is built near enough to it, there is no reason some classes of students in the secondary school could not take all of their academic subjects in rooms in the elementary school. Conversely, if there was crowding in the elementary school and space was available in the secondary school grade 8 classes could go over to the secondary school for some subjects. By building the elementary school close to the secondary school, there are an infinite number of arrangements and combinations possible for the betterment of student education and in the interest of economy.

The library in the secondary school is too small and it is hoped secondary students could use the senior elementary school's facilities. No other site would allow this sharing of facilities.

There is the future possibility of a closed-circuit television system that could be operated with one set-up for both schools; Thus

reducing the per student cost by one half.

The soil of this property is sand and gravel and is very suitable for sewage. This fact is significant when one considers that the clay in the soil at the secondary school has caused great expense in the past.

Board members believe that Haliburton village will have a sewage system some day and that the sewer mains will probably leave the town on the railway right-of-way. Therefore, to avoid future costs schools and hospitals should, if possible, be near the railway tracks.

The site gives a large playing field — twice as large as that of the secondary school.

The eighty-odd acres will provide land for all the future education needs of our community. Some day, if our area needs a Community College, we have the location. If the School of Fine Arts develops, what better site than on the river between Head and Grass Lakes.

The Ontario Water Resources drilled a well for the Municipality of Dysart on this site, that provides fifteen gallons per minute of pure, clear water — enough water for both the elementary and secondary school, if a modest storage is used.

Science Courses, now emphasize hikes for nature study. This property has almost every kind of land form and plant life that exists in our county.

Proximity to the secondary school makes busing of students more convenient.

The other site seriously considered was the Glebe Lands offered by the Municipality of Dysart at \$1 for one dollar. However, unevenness of ground, cost of clearing ten acres, difficulty of sewage disposal, the distance from the secondary school, the cost of access roads, the need for more space in the secondary school, etc., caused the board members to feel that it would be less suitable than the property of Sheffield Investments Limited.

It is the opinion of the majority of the board members that our community is fortunate to be able to purchase this land. Indeed fortunate that Sheffield Investments

Limited held it free from development until our need arose.

There is a good deal of talk within the county about the Board of Education being extravagant. If one is to examine the facts, they will find that the true situation is otherwise. The Board has a Business Administrator, who is paid one of the lowest salaries to one holding this position in the Province of Ontario. Take, for example, Victoria County with twice the student enrolment of Haliburton where there is a Business Administrator and six assistants, whereas Mr. Crossley has one secretary. The Board selected Mr. J. Douglas Hodgson as Director of Education and for the first six months of operation, he was both Director of Education and Principal of the Secondary School, at one salary. Also this salary is one of the lowest paid to anyone holding this position in the Province of Ontario. Compare Mr. Hodgson's staff with that of the Muskoka Board, with three times the student enrolment of Haliburton. The Board has a Director of Education, four supervisors, a bus coordinator and a maintenance man for buildings, while Mr. Hodgson has one secretary and Mr. Gordon Sharpless who is Attendance Officer, Bus Supervisor and Building Maintenance Supervisor. The Board has not built or purchased any offices for the officials, but has rented quarters at the most reasonable rent that could be attained in the Haliburton Village area. The space is not adequate to the needs of the Board, but in the interest of economy will be satisfactory for the present.

At present there are no Special Education facilities, of the Opportunity Class type, in this part of our county. The new school will provide for these students who are unable, through no fault of their own, to develop in the regular classroom.

DANCING AT MEDLEYS

There will be a Thanksgiving Dance this weekend, Saturday and Sunday Midnight, at Medleys in Carnarvon. Join the crowd and dance to the "Mauve Minor", a Toronto group.

HALIBURTON COUNTY CHAMBER MEMBERS TAKE SCENIC TOUR OF COLOUR FESTIVAL

Reported by Mrs. G. McManus

Mr. Norman Craig, Secretary-Manager, "Haliburton Highland's Chamber of Commerce", arranged a Scenic Tour of the Fall Colours for the Directors, their wives and friends of the Chamber of Commerce.

The weather always playing a great factor in such an event, Sunday, September 28th., was excellent. The colours were beginning to show their fiery touches of red, gold and scarlet amongst the deep greens of the fir trees and others still to turn their brilliant fall colour.

The tour consisted of many interesting sites. Twelve Mile Lake Dam where the waters pranced and gurgled along their merry way, towards their destination. Butter-Milk Falls, nature's heavenly spurge of rapid moving waters, proved exciting to see for all.

Further along the route at Ox-Narrows, the Sun poured through the slightly blaze of fall colour, a divine and heavenly picture for all to see.

The group enjoyed a slight stop-over at Berry's Snack Bar, where piping, delicious hot coffee was served.

From there, the party proceeded

to Dorset, the famous Dorset Look-out Tower at the Dorset Scenic Park, Picnic site. A few braves climbed the Look-out Tower to the top, having a birds-eye view of the surrounding splendour, enjoying the scenery in a hypnotic sense.

Another exciting stop-over, "Big-Hawk-Lake-Dam" where the whirl of the volunimously sparkling waters caused a trance like spell upon everyone. The Stanhope Historical Park was another feature, along with the Stanhope Municipal Airdrome.

The extreme beauty of the
(Continued on Page 2)

COBOCONK COUPLE 50 YEARS WED

Mr. and Mrs. G. S. Richman of Cobocok, celebrated their 50th wedding anniversary on Wednesday, last. They were married on October 1st., 1919, at Fenelon Falls by the Rev. C. S. Lord.

Mr. Richman, who operated a transport company known as Richman Transport, for 31 years between Miner's Bay and Peterborough, retired nine years ago.

He also at one time operated a pool room in the village of Cobocok.

LAKESHORE LOTS

Kashagawigamog Lake:

125' frontage with good shoreline, nicely treed and level. Price \$5,500.

250' frontage with sandy beach mixed bush. Price \$12,500.

100' frontage, treed. Price \$3,250.

Little Boshkung:
138' frontage, level lot and nicely treed, year round access. \$5,500.

Clear Lake:
A choice of lots beginning at \$30.00 per foot.

ABOUT THE TOWN

With Jeanne Sears

A goodly crowd of residents of Hyland Crest enjoyed a bus tour through Haliburton Village, West Guilford, and back home. This was through the kindness of Dave Stamp. Many of these included those in wheel chairs, it was a grand trip through this part of the County.

Something went wrong in this column last week. The ladies Orange Lodge Card Party was really successful as there were nine tables. Sorry about that ladies!

Patients at the Haliburton Hospital early this week were Mrs. Gladys Johnston, Mrs. Margaret Cummings, Mrs. Lawrence McNeilly, Frank LaPorte and Gordon Sawyers.

Mr. and Mrs. Tom Carroll of Rochester New York, vacationing at Hart Lodge this week, entertained the following at luncheon and dinner, Sunday, October 5th, Mr. and Mrs. Al Hodgins, Mountain Lake, Mr. and Mrs. Bob Hamilton, and Mr. and Mrs. Norman Mills of Islington and Toronto.

Former teachers at our Public Schools visited this area over the weekend. Miss Vicky Megaw of Toronto stayed with Mrs. J. Lidster and Mrs. Doyle and called at Cosy Cabins. Mike Ratuszny also of Toronto, but teaching at Brampton, also visited friends.

Must have been almost a record — I noticed several butterflies and moths flying on Saturday, as well as picking several cucumbers last Wednesday with more still growing on the vines. Also have heard reports of several large flocks of geese flying south.

Hint of the week — If you run out of filters for your coffee percolator two scotties work as a substitute if handled carefully.

Mrs. Vera Cowan is home again after enjoying several weeks visit with her son and family, Mr. and Mrs. Jack Cowan of Phelpston.

Patients at the local hospital early this week included Mrs. Geraldine Stewart, Mrs. Sharon Horsely, Mrs. Elsie Harrison, Ken Stewart, Victor Faubert, Douglas McKenzie and Mrs. Janice Barnes and baby girl.

Several persons have already been injured in hunting accidents, be sure that rifle or shot gun is not loaded or if carrying it, have the safety catch on. With the deer season coming in November take every precaution that our area may have a happy hunting season.

We wonder if residents realize how fortunate we are living in this colourful County. Many busloads and summer residents make special trips to see the glory of our scenery. There are many short trips we can take and enjoy the beautiful colour especially the Parks here and at Haliburton.

Next weekend will be another busy one with friends and relatives visiting, and the highways will be certainly busy, so take it easy. Cheerio until next week.

CHAMBER MEMBERS TAKE SCENIC TOUR OF COUNTY

(Continued from Page 1)

Hawk Lakes, Maple Lake and Grass Lake, many of the participants had never seen, the setting and all, proved awesome. Especially the exotic and tranquility of St. Peter's Church. Where the birds fluttered to and fro with their laels, reminding one of the beauty surrounding the peaceful and free country we all share in the Highlands of Haliburton.

The colours along the way to, Maple Sands Resort were breath taking. Mrs. Dale Anthes, of Maple Sands Resort, welcomed her guests most graciously. A delicious roast beef dinner with all the trimmings, beef-bullion, tossed salad, feather weight, home made rolls and a scrumptious dessert topped a delightful dinner.

Mr. and Mrs. Anthes, purchased Maple Sands some five years ago and have certainly made their haven one lovely place to spend a vacation. The grounds are well kept and most picturesque. Especially their 300 feet of sandy, safe shore line. Mr. Anthes, amused everyone, in his remark, "the beach is my hobby, I have 300 hundred more feet to clear before being completed. When I am not turning out special food surprises in the kitchen for my guests, I am playing on my beach project"

The Lodge itself is most intriguing, many antique pieces, a case of excellent wood carvings and several Indian curios, spearheads which Mr. Anthes, father found while working on their homestead farm in the Niagara district.

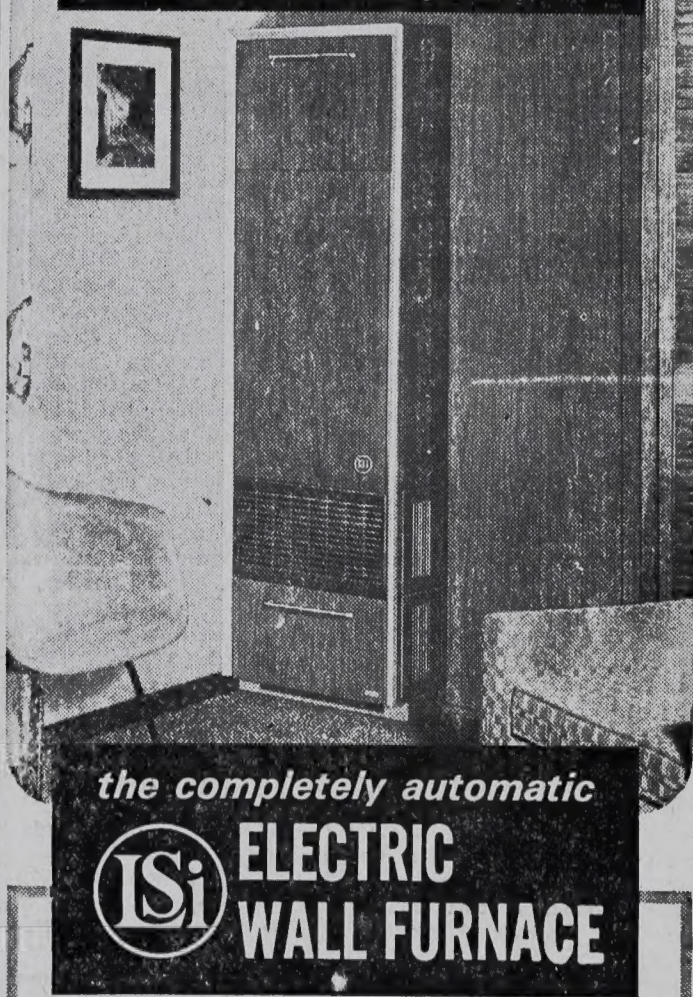

Mr. Anthes served as Chef in Her Majesty's Royal Canadian Navy, during world war 2, when released from services he attended Ryerson Institute in Toronto, specializing in Hotel, Restaurant and Bakery trade. Everyone present will certainly vouch for his culinary Art. (No one bothered with their Calories.)

On the return route the bus continued along through to Eagle Lake and surrounding district, where the Bolender mines proved quite an interesting site, along with the spotted blaze of falls fire colours through to Haliburton Village. Where half the group dismounted with comments of how delightfully, lovely the trip had been. Excitingly asking, "Where do we go on the next trip?"

The Mindenites dismantling at the Information Bureau, where in turn they thanked Mr. Craig, for a wonderful tour and dinner.

In Closing, the Directors, Mr. Craig and friends, wish to thank Mr. Glen Smith, of the LaRue Bus Lines, Haliburton, for his kind and courteous attention, making the tour, a wonderful, ever remembered event.

THE WORLD'S ONLY PHILOM

I just received my 1970 Almanic compliments of Victoria and Grey Trust Company. This little book has more words of wisdom, than any other I know.

The Almanacs are not for sale to the public but are distributed solely as a good will gesture by banks, insurance and similar companies throughout the United States. Three years ago a special edition with Canadian weather was started and this edition is distributed exclusively through the twenty-five branches of Victoria Trust Company in Ontario.

Our forefathers lived by the Farmers' Almanac and it still brings a look of nostalgia to many people's eyes. Although it bears the word "Farmer" in its title, the Almanac is full of information and entertainment for everyone; astrology, astronomy, calendars, history, bits of verse and humor, advice for farmer's, gardening tips, a fishing guide and recipes.

Ray Geiger, Philom, who is editor and publisher of the Farmer's Almanac will be visiting much of Southern Ontario on October 29, 30 and 31, calling in this area at Lindsay, Peterborough and Orillia, appearing on T.V. and radio, talking to reporters and speaking to service clubs.

Each year Ray is on the move promoting his Almanac from early September through to mid December covering all of the United States and appearing on national shows. This trip once each year into Canada is his only appearance outside of United States.

Philom — is the form used to designate a Philomath, derived from the Greek word meaning lover of learning or Philosopher — Mathematician. The earliest known Philomaths were Babylonians in the Eighteenth Century, B.C. Then from the Greeks in the Sixth Century, B.C. there were such well known ones as Pythagoras, Aristotle, Plato, Euclid, Copernicus, Galileo and Sir Isaac Newton. Benjamin Franklin was the first in modern times to be accorded the use of the designation Philom. Very exclusive Philomathic societies were very active until well after the turn of this Century but Ray Geiger is believed to be the only living Philom.

Ray Geiger graduated with a degree in Philosophy from Notre Dame University in 1932. He joined the family business and in 1934 became the editor of the Farmers' Almanac when it had a circulation of only 10 thousand. In 1968 circulation topped 3 million, 1969 3.6 million and in 1970 according to reports will reach well over the 4 million mark. Ray is just the fifth editor of the 153 year old publication and carried it on even during his four year term of duty in the marines during the 2nd World War, once on Guadalcanal and once even from his hospital bed in the Philippines. He refers to the Farmers' Almanac as a "Guide to Pleasant Living" and a "Beloved Family Friend".

PLANS CARRIED OUT TO KEEP DEER FED

Deer range improvement to help deer survive severe winters will be carried out by the Department of Lands and Forests again this year.

Since logging-tapered off several decades ago, the average age of the forest has been increasing rapidly in the province. Deer, enduring the winter snows in their yards, have had smaller food supplies each year as the shrubs and young trees grow beyond their reach.

If nothing was done, it was becoming obvious that the whole deer range would gradually deteriorate until it could support fewer deer than in the past.

The first major amount of deer range improvement work took place in 1967, although it was not specifically "centennial project". In addition to large purchases of equipment for use in future years, the actual area treated, to bring light to the forest floor and stimulate regeneration of browse species, was increased nearly tenfold.

About 2,300 acres were cut or bulldozed in 1967, compared with only 225 acres in 1966. These acres were scattered through many winter deer yards in Eastern Ontario, so that the total deer range, in which winter food supplies were improved, approached 190,000 acres. Since the winter range of deer is only about one-tenth of the summer range, the deer-hunting areas affected by the work were great.

The deer yard projects in this district will commence early this month and will take about four weeks to complete. Work will take place in Haliburton, Peterborough, Durham and Northumberland counties.

The deer management programs of the Department of Lands and Forests aims at maintaining satisfactory deer populations for hunting and viewing, and promoting full use of the deer as a natural resource.

YOUR EXCLUSIVE MOTO-SKI DEALER FOR MINDEN

And never again will they say

"HEY DAD ... HOW COME THE OTHER KIDS ALWAYS HAVE ALL THE FUN?"

There's a lot to be said for the 1970 MOTO-SKI. But for the thrill that beats all thrills, consider this: you drive into your yard. It's wintery cold and a little after dark. The family doesn't know you're bringing home a spankin' new 1970 MOTO-SKI (nothing wrong with making that kind of decision on your own!). You walk into the house (yawn once or twice) and say to the kids, "Hey kids! How about bringing in those bundles from the back of the car?"

That's the kind of thrill that young folks remember best about growin' up. But it's just the beginning. When you buy one of these 1970 family lovin' MOTO-SKIs, you'll make them like they're "the other kid". The one that always has all the fun!

A free copy of "Story of the Exclusive Track" will put you on the right track when you buy a snow mobile. Get the story from

(every MOTO-SKI has it)

**TUBERCULOSIS & RESPIRATORY
ASSOCIATION. SOON TO
FLOAT CAMPAIGN**

The newly-elected President of the Ontario Tuberculosis and Respiratory Disease Association, James Baikie of Brantford, foresees a period of dramatic change within the province-wide volunteer organization resulting from O.T.R.D.A.'s accelerating emphasis upon respiratory diseases.

"With our program of maintaining control of Tuberculosis and a complete reorganization to deal effectively with emphysema, asthma, chronic bronchitis — and the effects of air pollution and cigarette smoking upon health — we plan not so much a re-direction of present volunteer work and budgets as an extension of the present effort and present budgets to do a bigger job," Baikie said.

The Ontario Tuberculosis and Respiratory Disease Association coordinates the activities of 47 associate organizations in all parts of Ontario. These organizations organize the annual sale of Christmas Seals, which last year produced a record \$1,481,108. With these funds, local associations carry out volunteer programs in Tuberculosis control and in the field of respiratory disease. The work is coordinated by the O.T.R.D.A. and medical counsel is provided at the provincial and regional levels by the Ontario Thoracic Society.

"The increasing importance of Ontario Thoracic Society direction in respiratory disease programming is reflected in the recent appointment of Dr. Cameron Gray as the first full-time Executive Secretary of that body," Baikie said.

"Our most immediate task," she said, "is the formation of new community volunteer organizations to replace or incorporate Sanitarium-based and Tuberculosis-oriented associations. In this way, we can maintain interest and control over the residual Tuberculosis problem within the context of the broader problem — respiratory disease."

Community TB-RD associations have been formed at Windsor, Toronto, Cornwall, Kingston and Kitchener, and the transition is presently underway both in Hamilton and in the Niagara Peninsula," Baikie said.

Mr. Baikie, born in the Orkney Island, Scotland, was manager of the Canadian Imperial Bank of Commerce branch at Dalhousie and Market Streets from 1953 until his retirement after a 40-year career in banking. He has been extensively involved in area and provincial Tuberculosis activity for 3 years and was President of Brant County TB Association when it was a sanitarium organization.

CANADA
SAVINGS
BONDS**

8%

**average annual interest
to maturity**

Canada Savings Bonds can make good things happen to you—now and in the future. Millions of Canadians know this. Last year they bought more than three billion dollars worth. Their reasons for buying? Simple.

Canada Savings Bonds are easy to buy for cash or on instalments where you work, bank or invest.

Canada Savings Bonds are cold hard cash—instantly. They can be redeemed anytime at their full face value plus earned interest.

They are safe—backed by all the resources of Canada. A very special security.

And this year Canada Savings Bonds give you the best return ever!

New Canada Savings Bonds now yield an average of 8.00% a year when held to maturity.

Each \$100 Bond begins with \$7.00 interest for the first year, pays \$8.00 interest for each of the next two years, and then pays \$8.25 interest for each of the last six years. On top of this you can earn interest on your interest.

Double your money in nine years! Buy yours today and make good things happen to you!

BEST EVER!

HUNTING PROSPECTS

REPORTED GOOD

Hunting prospects for the 1969 season look good, report the Ontario Department of Lands and Forests.

Bears are reported to be in excellent supply this year. The prospects for getting a moose this year are reported good, as are the chances of getting the odd deer.

Ducks are in good supply as are Canada Geese, but the trouble with geese is to spot them flying low enough so that they are within shooting range. There will be a shortage of canvasbacks and redheads.

The Lands and Forests also remind hunters that one "mistake bird" of each species is allowed in the daily bag this year.

Ruffed grouse are predicted to be in good supply in this district as are cottontail rabbits and European hares (jacks).

Quail is in good numbers, as are raccoons, coyotes and foxes.

GUILD HELD MEETING

PLANS MADE FOR 1970

The Summer Exhibition Committee of the Haliburton Guild of Fine Arts has already held its initial meeting to plan the 1970 summer exhibition. The enthusiastic committee set the dates of the exhibition for July 8 - 11.

Tide Nevitt, the convener of the successful 1968 and 1969 summer exhibitions, will again convene the four day show. New ideas are being formulated to make the 1970 exhibition as interesting and stimulating as possible.

DOLLARS AND GOOD SENSE

by William J. Martin

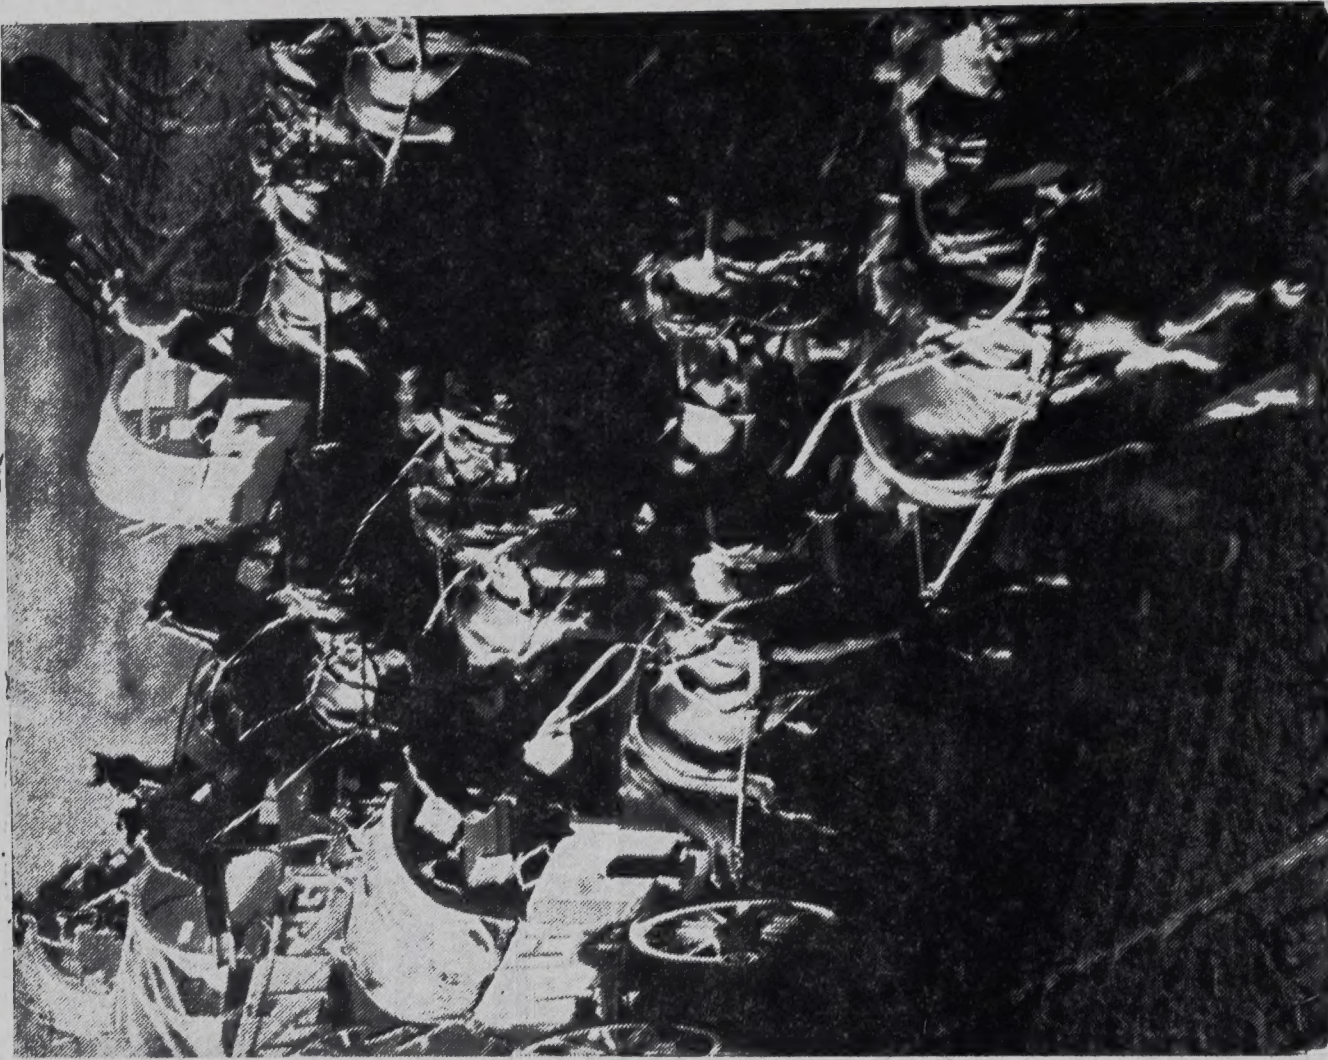

Dear Sir:

Together my husband and I make over \$16,000 a year. We're both 25 years old and feel this is every good income. But the problem is should we just try to live on his salary and bank mine or should my check also go for everyday living expenses, vacations, etc.?

who gives his wife a certain allowance each week and expects her to run the house with it? It's been the same for the past several years.

Mrs. D. W. Not much! Not, on the other hand, do I think much of a wife who won't demand more money for household expenses. Rediculously however I don't

Mrs. G. I.

According to William Scott of Kinmount Fair Board, the above action will be seen at the Kinmount Fair next year. Chuck Wagon Races will be featured.

And live a little!

All you need is an automatic washer and electric dryer. With one setting of a simple control, the washer fills itself, washes, drains, rinses, and damp-dries. Then the dryer takes over. Keeps your clean wash free from impurities in the air. Fluffs clothes into a natural shape for easier ironing. And takes special care of your permanent-press garments. There's no hard work. No watching. No waiting. Your time's your own.

You've banished your washray blues!

With an automatic washer and electric dryer, you don't have to do the whole family wash the same day. Do a little at a time. Whenever you feel like it. Even when it's pouring rain.

Get yourself a new automatic washer and electric dryer from your local major appliance dealer, and live a little.

your hydro 

should my check also go for everyday living expenses, vacations, etc.?

Mrs. G. I. If you two can't live on \$10,000 a year at your age and with no responsibility (you didn't mention any) in the area where you work and reside — you're in pretty bad shape. I know a number of young couples who make much less than that and are managing quite well.

The point is, Mrs. I., don't get used to living on that \$16,000. If you were unable to continue working because of maternity reasons, etc.? If you have been living on the combined income, you would suddenly find yourselves shy almost 50 per cent in the income department. That's a drastic reduction. So, put your money where it will earn interest for you and work for that future home or whatever else your goals may be.

Dear Sir,
What do you think of a husbanded.

hand, do I think much of a wife who won't demand more money for household expenses.

Redistrically, however, I don't know how I can help you in this case unless, perhaps, you show this column to your husband. If you can't convince him that the cost of living has skyrocketed then I don't know who can.

There is a little trick you can try. It really isn't a trick. It's actually a very simplified type of budget. Take a piece of paper and draw a line down the middle. On one side, label it "expenses" and list here all the items you spend money on during the week. Everything. On the other side of the line, enter under "incomes" the amount your husband gives you. Then, subtract "expenses" from "income" and enter the result at the bottom center of the page, underscoring.

If he doesn't get this message, Mrs. W., ask him if he will try running the household for a week on the same amount you receive.

U.C.W. HERE HOSTS PRESBYTERIAL

REGION 6 RALLY RECENTLY

Minden U.C.W. were the hosts for the Region 6 Rally of Lindsay Presbyterian U.C.W. on Wednesday, September 24th., 1969.

The Rally was opened at 9:45 a.m. by Mrs. John Noble, Tory Hill, Chairman of Region 6.

Rev. Norman W. Oake, minister of the charge here in Minden, welcomed all present and gave an inspirational meditation on "Commitment".

The morning devotions were conducted by Wilberforce U.C.W. Mrs. M. Outram opened the service with Hymn 365 "Who is on the Lord's side", followed by Mrs. Cleo Cruickshank, who read the Scripture Lesson from John 15 and offered prayer.

Mrs. E. Watson presented a thoughtful meditation on, "How big is one?" Only one person may start a movement. If one use our own God — given talents one will discover how big one really is!

An impressive memorial service was conducted by Carnarvon U.C.W.

Mrs. Allen Bursey, Carnarvon, graciously introduced the guest speaker for the Rally, Mrs. Edmund Ruth, Omeme, Past President of Lindsay Presbyterian U.C.W.

The message of Mrs. Ruth's address was "one must learn to express their faith in testimony as well as acts, and thereby serve the church and community in a more vital way." Mrs. Ruth then gave an interesting demonstration on "Floral Art in the Church," showing flower arrangements for special Sundays on the Church calendar, which may be correlated in the worship service. Mrs. J. A. Robertson, Haliburton, thanked Mrs. Ruth for her interesting message and demonstration.

Mrs. S. Brooking, Tory Hill, Secretary for Region 6, read the Roll Call.

Members were present from Haliburton, Lochlin, Carnarvon, Maple Lake, Minden, Highland Grove, Gooderham, Tory Hill and Wilberforce. There were also 13 Presbyterian officers present, making a total attendance of 80.

Mrs. Gordon Gilson, Jr. Little Britain, gave a resume of Literature available for the programmes and for the new study, "Reconciliation of a Broken World."

After a delicious luncheon served by Minden UCW, the group was led in a hymn by Mrs. Gordon Barr, Gooderham.

The afternoon session was opened by Mrs. Noble and prayer was offered by Maple Lake UCW.

A playette entitled "Tell me, Doctor", was ably presented by Haliburton UCW. Mrs. Deane Nellman, Omeme, conducted a brief discussion period on the playette's theme.

Mrs. G. H. Palmer, Fenelon

Falls, President of Lindsay Presbyterian U.C.W. brought greetings.

Mrs. Roy Hopkins, Fenelon Falls, Recording Secretary for Lindsay Presbyterian requested reports be sent to her by December 15th., 1969.

Mrs. F. Nixon, Manilla, Presbyterian supply Secretary, reported a great need for good used clothing for the fall sale.

The Rally Offering was received and dedicated by Highland Grove UCW.

The President for 1970 for Region 6 is Mrs. Cleo Cruickshank and Secretary is Mrs. Earl Smith, both of Wilberforce.

The place for 1970 Rally is Gooderham. The closing Hymn was 498, "More Love to Thee, O Christ."

The Courtesy Report and the Benediction were read in unison.

HEATED MOTOR STORAGE

TUNE UP OR MAJOR OVERHAUL

BOAT STORAGE - REPAIR - REFINISHING

Your Texaco home team presents its new hot water service.

An oil-powered Texaco water heater provides more hot water faster than any other comparable type of unit. Four times faster than gas and eight times faster than electricity.

And it costs you less. Oil is simply the most economical way to heat

cold water. A 30-gallon Texaco water heater will heat 115 gallons of hot water per hour.

It's the best kind of hot water service. It's yours for just pennies a day.

We'll see that you always have the home comfort you desire. Day and Night.

Our teamwork keeps the water hot.

LIBRARIANS HONOR COUNTY LIBRARIAN

Haliburton County Librarian Noel McNeil was recently honored on the occasion of his retirement after serving the county for three years as county librarian.

During the workshop session held in the Haliburton County Library, Mrs. J. Sears made a presentation to Mr. McNeil on behalf of the librarians and their assistants in the county. Mrs. Sears expressed regret at the departure of "a fine leader and councillor" who was always enthusiastic and over-generous with his time and talents.

During the workshop session, county librarian Mrs. M. Packard discussed difficulties being experienced by librarians in the county. Arrangements were also made for several members of the county library staff to attend a Children's Workshop in Peterborough.

Gordon Bittern, assistant director of the Lake Ontario Regional Library System, explained the modification of the book exchange system and answered questions posed by the librarians present.

SCHOOL LUNCHES

If you have children, you probably pack about 200 school lunches for each child every year. It's important that these lunches contain the right foods. One third of the day's nutritive requirements are needed at noon to supply energy for a busy youngster. The nutritionists at Macdonald Institute, University of Guelph, suggest that every lunch include milk, a protein (meat, egg, fish, poultry, cheese or peanut butter), vegetables and fruit.

Use at least one protein in sandwiches or a main dish. For sandwiches, try different breads like rye or raisin, or even hamburger or hot dog buns. To avoid soggy sandwiches, spread the butter well over to the edges of the bread.

Include raw vegetables. Celery sticks, carrot curls, turnip, radishes, green onions, pickles, all add texture and color.

Fruit is a quick dessert. Use fresh fruit in season — oranges, apples, grapes, peaches, pears, or in winter use dried fruits like raisins, dates or apricots.

Milk rounds out the menu as a beverage or in a soup or dessert. Cream soups pack easily in a thermos and are excellent for cool fall days.

Pack lunches in airtight bags or containers to ensure freshness.

DID YOU KNOW?

Described as "one of the cruellest sources of mankind" illiteracy is the most tragic problem facing the world today. Find out about ways you can help by contacting World Literacy of Canada, 77 York Street, Toronto.
